Bass Terms of Business

Service

HAVING but one of most of the items listed herein, we suggest that when ordering, a second and third choice be listed. This will result in our mutual benefit in the saving of time and trouble. Should any particular outfit listed appeal to you and you are not immediately ready to purchase same, a 25% deposit will hold it for you 30 or 60 days. This same method is suggested when you offer your merchandise in trade on a listed outfit, that is, to safeguard yourself against the time consumed in the shipment of your goods to us.

Order on enclosed order blank and describe in detail, number and outfit or accessories requested. A quantity of order blanks will be forwarded you on request.

Surety

Our Guarantee as printed on preceding page is absolute protection against your purchasing an outfit that does not meet with your entire approval. The Bass Guarantee has stood the test of time.

Terms

Cash with order or 25% with order, balance C. O. D. Cash with order is preferable, inasmuch as it saves you three to four days delay from the carrier's red tape. Prices listed herein are net. No C. O. D. shipments outside of Continental United States.

BENTZIN FOLDING REFLEX

At last a folding Reflex with the stability of a box type camera. The Bentsin Folding Reflex incorporates positively one of the very best Focalplane shutters, speeded from 1/10 to 1/1000 of a second. Shutter is of the special safety type, making it impossible to accidentally fog film, brilliant focusing hood, enabling the careful focusing necessary for the finest quality work. Camera is fitted with 18 cm. 7½" focus genuine Carl Zeiss Tessar F4.5 in new model focusing mount. Camera is covered with fine genuine seal leather, exquisitely finished. Metal parts black enameled in the finest possible manner. Folds up compactly. Dimensions when folded 4"x7"x8". Size of pictures 9x12 cm., or 3¼x4¼". Revolving back for either vertical or horizontal pictures, rising and falling front with rack and pinion adjustment and special screw lock nut. In fact, there is no feature lacking to this superb instrument. Charles Bass guarantees this outfit to be superior in workmanship and material to any camera of its type made. The outfit comes complete with plush lined fine leather carrying case, 3 finely made double plate holders, and film pack adapter. List price, \$300.00 new. Special price, complete,

This remarkable 6x30 ultra-luminous Gundlach Manhattan Naval, day and night Prism Binocular, a recognized standard of the world. Special fog and mist filters in conjunction with its ultra luminous qualities enable its satisfactory use under the most adverse light conditions. The 30 m.m. objective admits 50% more light to the eye, and the 6-power magnification brings the object close enough for all types of work and enables careful study of the object under inspection. The only prism Binoculars having a field of vision of 145 yards at 1000 yards distance. Special micrometer focusing device for adjusting to the eyes insures absolute focus to each eye, individual pupillary adjustment for separation of eyes regulates same to fit the user perfectly. Binoculars are constructed in the world-famous optical works of the Gundlach Manhattan Optical Co. of Rochester, N. Y. Each glass fitted with fog and mist filter, complete with fine sole leather carrying case and strap.

26832—A \$65 Glass at the special net price of

\$37⁵⁰

USED BINOCULAR BARGAINS

- 26823—One lot of 8x24 Flamarion Paris, a very high grade French Glass, made of the best optical glass and constructed with the finest workmanship. Really a high grade instrument complete with fine leather carrying case. New, at\$32.50

BASS SELECTED ACCESSORIES

Barre Color Filters

The most convenient and practical color filter ever made, consisting of three screens made of optically flat glass, colors, light, medium and dark, increasing the exposure 2, 4 and 6 times respectively when used with orthochromatic or other color sensitive plates, or increasing exposure 3, 6 and 10 times when used with regular plates. When not in use all three screens can be carried in holder by means of threaded color ring and an ingenious spring catch, by means of which the screen is instantly fastened to the lens without scratching or injuring lens mount.
