**Plate-holders or Shields.**

We would call special attention to our Patent Dry Plate Shields or Plate-holders. They are so arranged that one or two 4 x 5 plates can be used in a 5 x 8, one or two 4½ x 6½ can be used in a 6½ x 8½, or one or two 5 x 8 in an 8 x 10 plate-holder. Thin wooden frames can be supplied for holding still smaller sizes, if desired, so that the amateur can experiment with smaller plates than the extreme limit of his holders, and at much less expense. They are also much more readily managed in the ruby light than any other style, and are guaranteed to be the only perfect plate-holders in the market.

*SUBSTANTIAL, PRACTICAL, UNRIVALLED.*

**Anthony's Developing Bottle.**

This developing bottle is a great convenience to the amateur or professional photographer, and will soon save its cost in the quantity of developer economized.
